Carriage for 1 nbr sign and solar to Quernmore £45.00 + vat

As before, the signs and solar arrive complete with post clips or screw-bands for an easy fix to an existing post.

We pre-program the signs to suit your speed limit, so once installed on the post, the sign can be simply switched on, no expertise required.

Data-logging not required.

Please find datasheets attached for the signs listed above, for your perusal.

Our PTSC range is designed and manufactured by us, here in the UK, in an ISO 9001 environment and has a 2 year, return-to-base warranty.

Lead time is typically 10-15 working days from order to despatch.

PTSC 8012 Solar kit at £475.00 + vat per sign.

This offers a 'fit and forget' 24/7 power solution, provided that the solar panel is facing south and is not in major shadow from trees or buildings.

The solar powered signs have an onboard battery which is kept topped up by the solar panel for round the clock use.

Pandora Technologies Limited
